

MolPort Launches a Next Generation Rare Chemical Online Shop

Press Release
16th April 2012

After all the work that moment has finally come our new online shop is ready. We have cut the ribbon today and are inviting you in to have a look around and fill you easily see through shopping cart. Here is what I mean let me give you a tour. **Searching** for molecules is still just what you were used to you can text search, [browse](#) through the periodic table or [draw](#) your desired structure or parts of it. Once you push the search button, you will start to really notice the differences. The **search results page** will show you the usual basic information and give you an instant clue about how soon you might get to your lab what you need. See [the availability tags](#).

4-(5-fluoro-1,3-dioxisoindol-2-yl)benzoic acid	
Compound number:	MolPort-000-155-571
Other names:	4-(5-Fluoro-1,3-dioxo-1,3-dihydro-isoindol-2-yl)-benzoic acid; benzoic acid;
SMILES:	<chem>OC(=O)c1ccc(cc1)N1C(=O)c2ccc(F)cc2C1=O</chem>
InChI key:	UCLKEKHQIWCOQF-UHFFFAOYSA-N
Molecular formula:	C ₁₅ H ₈ FNO ₄
Molecular weight:	285.23
Availability:	● In stock

[Buy It Now](#)

Found something interesting? **Once you click on the See it button** you will find the usual detailed information about the molecule like names and notations. What's new and special comes a bit lower down.

ENAMINE Ltd.  Top seller

Shipping and Handling Europe: 90.00 USD  Ships out in: 14 days Catalogue #: Z45511843 In warehouse: 96603.7 mg Purity: >90%  Last updated: today	Pack size	Price	Qty	Subtotal
	5 micromol	64.00 USD	<input type="checkbox"/>	0.00 USD
	1 mg	64.00 USD	<input type="checkbox"/>	0.00 USD
	2 mg	67.00 USD	<input type="checkbox"/>	0.00 USD

We have made some big steps towards helping you too understand from the very start of your purchase what costs how much and what the final price will be. Thanks to improvements in logistics on our part we have split **delivery costs according to regions** and you can see them immediately for each of the compounds under Shipping and Handling. You will also see right away if there is a **minimum order fee** for the compound you are interested in. We also want you to know how much you can trust the accuracy of the information about availability of the compounds you are ordering. So, we have added **information about last synchronization of our and supplier warehouse databases**. Already now we have several suppliers who are sending us these updates daily and we are working hard to convince more and more to join them. We have also reorganized what you see when checking out what's in the shopping cart. Even though the first summary page will not show you the shipment costs, you can **proceed to check out**, fill in your contact details to see the final **order summary** which we have sorted by suppliers.

MolPort ID	Catalog Number	Packing	Items	Price per item	Total price
Supplier: Matrix Scientific, LLC					
MolPort-000-001-269	018362	1 g	1	83.00 USD	83.00 USD
MolPort-000-141-013	009765	1 g	1	19.00 USD	19.00 USD
Product count:					2
Subtotal product:					102.00 USD
Shipping and handling:					150.00 USD
Subtotal for Matrix Scientific, LLC:					252.00 USD
Supplier: Mir Biotech					
MolPort-002-324-326	STK362939	1 mg	1	25.50 USD	25.50 USD
Product count:					1
Subtotal product:					25.50 USD
Minimum order fee:					174.50 USD
Shipping and handling:					135.00 USD
Subtotal for Mir Biotech:					335.00 USD
Product count:					3
Compounds:					127.50 USD
Minimum order fees:					174.50 USD
Shipping and handling:					285.00 USD
Total order value:					587.00 USD

Here you can really see what costs how much price of compounds, minimum order fees, delivery costs from each of the suppliers (or the extra cost of us taking care of putting it all into one handy package so you don't have to deal with receiving several packages and doing customs for all of them) and the total order value, of course.

I do really think this is the right way forward how shopping for rare chemical compounds should be done simple, transparent, convenient and easy on the eyes for you as a customer. **What do you say?**
